Aslında her renk, kaynağını doğadan alır. Ama bazı renkler doğanın ve yaşamın enerjisini çok daha doğrudan yansıttıkları için yaşam alanlarında natürel bir doku yaratmak isteyen ev sahipleri belirli renkleri daha yoğun olarak tercih ederler.

Mutfaklar, dekorasyon denilince oturma alanları ile beraber gözden geçirilecek ilk yerlerden biridir. Mutfak dekorasyonunda kullanılacak renk tonları kombinasyonu, uygulanacak stil ve tarzla ilişkilidir.

Mutfađınız için dođru mutfak dolabını belirlerken, evinizin ve mutfađınızda oluřturmak istediđiniz genel tarzı belirleyerek aynı tarza sadık kalıp uygun modeli tercih edebilirsiniz.
